ROLL NO:4

Abstract

The system of private tuition has been in existence in India for a long time but in recent times it has grown in manifold affecting the core of the educational system. Teachers can also get a student just by logging onto the website and setting up the profile.

In the personal tutor finder system, there are three entities namely, Admin ,Tutor and student. Admin can login, manage tutor new teachers. Admin can also check for the registered students. Student can register and login, tutors can be viewed by students. students can filter and select the tutor by ratings, they can book the tutor online, rate the tutor.After registration students can view video tutorial, live sessions and view the E-Books. The tutor can login by using credentials that will be provided by mail. They can also check the booking done. They need to set their profile. This course finder system can help the tutors to get students to find the best tutors for their children.

About the Project:

The purpose of "Course Finder" app is a tool to assist the students to find private tutors in an interactive manner. It aims to complement the efforts of a student to find a desirable teacher.

Importance of the system:

This can be used by students to find courses whenever needed. Can be used anywhere any time This app can be used by many students who love teaching as a part time job.You Can More Easily Communicate With Your Professor.

Main Goal of the System:

Enhance the quality of learning and teaching.Meet the learning style or needs of students.Improve the efficiency and effectiveness.Improve user-accessibility and time flexibility to engage learners in the learning process

System Users

1. Admin
   a. Manages the system.
   b. Remove teachers
   c. view payments
2. Teacher
   a. Register,Login.
   b. View students enrolled,remove students.
   c. Assignments Add/delete.
   d. Assessments Add/delete/view
   e. seminar conduct
   f. Study materials like Notes,tutorial videos,live class session Add,view,delete
   g. chat
   h. Time table Schedules
   i. view ratings
   j. Add courses
   k. carrier
   l. Payment
3. Student
   a. Register.
   b. Login.
   c. Update details.
   d. Apply for courses.
   e. View study materials
   f. view schedules
   g. Assessment Add and view grades
   h. Give ratings.
   i. search
   j. Conduct seminar
   k. view carrier
   l. view instructor
   m. view courses
   n. chat
   o. payment

Functionality of System:

1. User profile
2. Assessments
3. Assignments
4. study materials
5. Achievements
6. carrier options

Technology used:

- **PHP**
- **MySQL**
